Please find below and/or attached an Office communication concerning this application or proceeding.

	Application No.	Applicant(s)				
	10/611,946	BONICEL, JEAN-PIERRE				
Office Action Summary	Examiner	Art Unit				
	Eric Wong	2883				
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status						
1)⊠ Responsive to communication(s) filed on <u>03 July 2003</u> .						
2a) ☐ This action is FINAL . 2b) ☑ This						
3) Since this application is in condition for allowance except for formal matters, prosecution as to the ments is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.						
Disposition of Claims						
4) ☐ Claim(s) 1-20 is/are pending in the application. 4a) Of the above claim(s) 1-13 is/are withdrawn from consideration. 5) ☐ Claim(s) is/are allowed. 6) ☐ Claim(s) 14-20 is/are rejected. 7) ☐ Claim(s) is/are objected to. 8) ☐ Claim(s) are subject to restriction and/or election requirement.						
Application Papers						
9) The specification is objected to by the Examiner.						
10)⊠ The drawing(s) filed on <u>03 July 2003</u> is/are: a)⊠ accepted or b)□ objected to by the Examiner.						
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).						
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.						
Priority under 35 U.S.C. § 119						
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. 09/237,237. 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 						
Attachment(s) 1) Notice of References Cited (PTO-892) 2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date 0703.	4) Interview Summary Paper No(s)/Mail Da 5) Notice of Informal P 6) Other:					

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 14-17 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent Number 4,741,592 to Secco et al.

Secco et al. discloses a method of manufacturing a hydrogen absorbing optical cable comprising:

- Covering the inside surface of a strip of metal with a catalyst substance (abstract);
- Forming the strip in the shape of a tube (15: figure 5);
- Inserting optical conductor(s) and a filler material into the tube (an optical fiber is used with hydrogen absorbing filler material);
- Swaging the formed tube after it has been welded.

As to claim 15-16 and 19, the layers of hydrogen absorbing material can be formulated for adhesion (column 6, lines 35-40).

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Application/Control Number: 10/611,946

Art Unit: 2883

4. Claims 18 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over United

Page 3

States Patent Number 4,741,592 to Secco et al. as applied to claims 14 and 15 above, and further

in view of United States Patent Number 4,504, 112 to Gould et al.

Secco et al. discloses a method of manufacturing an optical cable having a metal tube

construction with hydrogen absorbing layers with a catalyst within said layers, but fails to

explicitly disclose a gas tight structure.

Gould et al. discloses a hermetically sealed optical fiber made from rolled metallic wire.

It would have been obvious to one having ordinary skill in the art at the time the

invention was made to hermetically seal the structure of Secco et al. by the methods taught by

Gould et al. in order to protect the optical cable structure from deterioration from environmental

elements and prolong the life of the fiber and to minimize the occurrence of optical losses.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 07/03/2003 has been partially

considered by the examiner and made of record (note the attached copy of form PTO-1449).

Copies of foreign patent documents "AI", "AJ" and "AK" were not included in the

application.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure.

a. United States Patent Number 4,432,605 to Niiro et al. for an optical fiber

submarine cable that is a multiplayer structure with a welding process.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric Wong whose telephone number is 571-272-2363. The examiner can normally be reached on Monday through Friday, 830AM - 430PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frank Font can be reached on 571-272-2415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
